and impactful, bridging the gap between evidence and action.

SPEAKERS

- **Gurman Bhatia** – *Founder and Director, ReVisual Labs*
- **Raj Bhagat Palanichamy** – *Senior Manager, Geo Analytics, WRI India*

3:45 PM – 5:30 PM

Advancing Private Sector Action on Adoption of Low Carbon Building Materials

This roundtable aims to identify practical, business-led pathways for increasing private-sector adoption of low-carbon cement and cement-based products in India, and to translate these into actionable priorities for the Decarbonisation Business Charter.

JACARANDA

2:00 PM – 3:30 PM

Partnering for the Future of Small Cities

This session will explore how small cities, home to over 40% of India's urban population in 2011, serve as vital connectors between rural production systems and wider markets. Recognising that large-city models often fail to address their distinct realities, it will examine place-based, adaptive approaches and the role of alliances in supporting sustainable and resilient transitions.
